🔗 amandineameye.vercel.app

Passionate and self-driven developer, I thrive on solving technical challenges and designing intuitive, user-centered solutions.

📁 PROJECTS

Diabestie

A web application designed to help diabetics estimate the insulin required before a meal. Built with a **React** front-end, state management handled by **Redux**, a **Node.js** back-end, and a **MongoDB** database. Secure access implemented using token-based authentication.

Carbon Quest

An educational platform game raising awareness about Green IT, accessible through a web page. Developed with a **React** and **Tailwind** front-end, a **Node.js** back-end, and a **MongoDB** database.

Portfolio Website

A responsive portfolio website in **React** featuring a contact page for sending messages, focused on clean design and smooth user experience.

🏆 DISTINCTION

Beta Gamma Sigma Society Member
Maastricht University

A distinction awarded to the top 10% of students in the graduating class.

🌟 PASSIONS

Puzzles • Escape games • Pun-based humor • Humorous Song Parodies
